billion

Our priorities

Support growth

- deliver Government of Jersey competitiveness programme
- simplify the regulatory framework
- progress the registry of the future
- promote innovation, including digital assets

Be risk-based and proportionate

- data and intelligence-led approach to supervision
- earlier interventions
- reduce the regulatory burden where risk is lower

Combat financial crime

- engage proactively with international standard setters
- support and enable a national strategy to combat fraud

Deliver excellent service

- more certainty on decision-making timeframes
- faster turnaround times
- improved user experience of our digital channels
- better customer service
